Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Applicant's amendments and comments, received December 18, 2006, have been fully considered by the examiner. Applicant's correction of the claim dependencies and the cancellation of claim 14 are acknowledged. The following is a complete response to the December 8, 2006 communication.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10, 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Miyawaki et al (6,193,709).

Miyawaki et al disclose an ultrasonic treatment apparatus comprising a probe (79) to which ultrasonic energy is applied, and a tip action unit that moves in an opening and closing manner. The tip action unit includes a jaw member (75) and a grasping member (78) pivotably supported by the jaw for grasping living tissue (see Figures 5A, 5B and 6). The grasping member includes a body element (81,82) made of a heat resistant resin (col. 8, lines 30+) and a reinforcing member (83) fitted with the body element to cover a portion of the body element. In particular, the reinforcing member is a metal plate that surrounds the body member (82) for attaching the body member (81,82) to the jaw member (78).

Allowable Subject Matter

Claims 7-9 are allowed. The prior art fails to disclose or suggest a reinforcement member embedded within the resin body of the device as now set forth in these claims.

Claim 11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
